HOS Details

Modules

Work Orders

This module will let you receive and create online work orders and manage them by changing the status whenever you need to. Some of the statuses are:

- ✓ Sent
- ✓ In Route
- ✓ Arrived
- ✓ Pending
- ✓ Read
- ✓ Cancelled
- ✓ Completed

Inspections

Compliant with FMCSA inspection regulations. Driver's signature is required for a proof of completion. In-vehicle inspections are automatically synchronizes with TSO Maintenance module.

Routes

Receive routes created from the online application, providing stops' information and turn-by-turn directions.

Fuel Purchase

Gain control over the fuel load in the vehicle. As the driver is loading fuel, you will be automatically notified where the vehicle is being fueled as well as the date and the time.

Messaging

Send and receive messages with your driver from the same InCabin application.

HOS Dashboard
